DETAILED ACTION

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: regarding independent claims 1 and 19, the prior art of record teaches of an optical transceiver module comprising a locking mechanism. However, the prior art does not disclose or render obvious, either alone or in combination, the following in italics, in combination with the rest of the claimed limitations: an automatic-restoring unlocking mechanism comprising a sliding plate, an unlocking lever, and a restoration spring, wherein the automatic restoring unlocking mechanism automatically restores the sliding plate to a normal position after the optical transceiver module is unlocked from the receiving cage. Claims 2-18 and 20 are allowable by virtue of their dependency.

For example, US 6,819,568 B2 does not teach a sliding plate that is automatically restored to a normal position. Likewise, US 7,083,336 B2, US 7,066,746 B1, US 7,040,911 B1, US 7,004,647 B2, and US 6,430,053 B1 do not teach a sliding plate that is automatically restored to a normal position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
